

BRAND GUIDELINES

Financial Services • v1.0

The brand

MoneyCraft is a modern challenger bank for everyday life. We pair a market-leading app with genuinely useful packaged accounts, and we talk to customers like capable adults, not account numbers. Confident, clear and a little bold.

Clear

Plain English, always.

Confident

We know our stuff.

Human

Warm, never robotic.

Tone of voice

Do

Write the way you'd speak: short, plain sentences.
Lead with what it means for the customer.
Be specific and honest about money.
Sound optimistic and on their side.

Don't

Hide behind banking jargon or small print.
Patronise, or over-promise with hype.
Use stiff, corporate phrasing.
Make the customer feel small.

The logo

Our logo is the violet M mark with the two-tone MoneyCraft wordmark — 'Money' in ink, 'Craft' in violet. Give it room to breathe.

Clear space & size

Keep clear space of at least half the icon height on every side. Don't let the lockup go below 24 px tall on screen.

Please don't

- recolour the logo or wordmark
- stretch, squash or rotate it
- add shadows, outlines or effects
- place it on a busy or low-contrast background
- rebuild the wordmark in another font

Colour

Violet leads. Ink for text, generous white and soft lilac space, and a mint accent reserved for positive signals and data highlights.

Lato

Body copy is set in Lato. It is warm and highly legible at small sizes, which keeps statements, app screens and long-form content easy to read.
